Scheduled Maintenance

When you have HOLT CAT® Scheduled Maintenance (also known as a Customer Support Agreement, or CSA), you can be sure that your generator sets and electrical components are being serviced using Caterpillar's® manufacturing standards, which are some of the industry's highest standards. They are your guarantee of continued high quality performance and longer equipment life.

Maximize Your Generator's Performance

Whether your system is used for standby power, peak shaving, co-generation, prime power or pumping, HOLT CAT Scheduled Maintenance keeps you worry free and your generator power system trouble free. Working with our vast Texas territory and field service capabilities, we can respond to your needs regardless of your location. With one call, we are able to dispatch technical service or assist with one-on-one verbal communications with your site location.

HOLT CAT Scheduled Maintenance offers rental benefits

You are linked with the unequalled resources and full product support of the CAT® Dealer Network. You will receive access to HOLT CAT's extensive Texas inventory as well as the worldwide CAT rental inventory of generator sets and chillers to meet your specific needs with real advantages like:

- The industry's largest and most modern rental fleet.
- Reliable equipment built exclusively for rental.
- 24/7 turnkey service.
